7 October 1966

MEMORANDUM FOR: Assistant Deputy Director for Intelligence

SUBJECT : Comments on Annual Report of the National
Cryptologic School (NSA)

1. I don't believe there is any action you need to take and very little you need to be informed about. General Carter sent this because this is one of his favorite projects at NSA and he wants you to know of the school's progress. Moreover, at some point he will undoubtedly note to you that this school's resources were among the cuts he received from Defense in the review just completed.
